Vanua: Towards a Fijian Theology of Place is a refreshing theoretical reflection on the links between the Fijian vanua and theology. Dr Tuwere takes us on a journey of reconciliation with Fiji’s multiculturalism as he searches to define contemporary Fijian identity.

This voyage through Fijian myths of migration and into the trinity of vanua, lotu and matanitu compels the reader to question assumptions about Fijian society and “affirms the truth of the Gospel while challenging reigning falsehood.”

This work is seminal and provocative. It is an awakening!
